Rural development can include the needs of basic services, infrastructure, financial development, conservation of rural land, improvement of physical and environmental conditions and improvement of the skill development of the rural population. Rural development is the process that leads to the participation of citizens in activities that will improve the quality of life, and the process can be created by improving the capital endowments of rural people. The

efforts that are made by governments to improve the socio-economic condition of the rural areas as well as to implement
