predominantly percussion instruments. The album features a wide selection of instruments (including some that don't exactly fit the game...), and it covers a range of styles. The theme is upbeat. The lead track is 'Chuck's Fantasy', which is a short, slow piece built upon a heavy percussion. The album is in three discs. Disc 1 includes 22 songs, while disc 2 includes 10 songs. Disc 3 includes 12 songs. Of course, don't forget to check out the rest of my music here Note: All the music is available for free download to listen or for royalty free use. Google Play Rating: 2 Downloads: 22Apple on Monday seeded the second beta of iOS 12.1 to developers, one day after seeding the first developer beta. Along with introducing new features like drag and drop from iPad apps, iOS 12.1 has seen some fairly significant changes to the capabilities of the HomePod speaker. These include support for third-party scripts and dynamic playlists, as noted by MacRumors. Apple says it wants "to bring you more of your favorite music from your favorite apps." Overall, changes in iOS 12.1 include faster response times for multitasking, improved iCloud photo library support, and the ability to delete your account and manage your Apple ID more easily. The beta of iOS 12.1 can be downloaded over-the-air once available from the Apple Developer Center. Users enrolled in the Apple Beta Software Program can also download on their iPhone or iPad from the Settings app's General --> Software Update tool. Apple is holding an Apple Special Event on Sept. 12 at the Bill Graham Civic Center in San Francisco at 9:00 a.m. PT. Apple didn't supply a video preview of the event, but it is widely expected to introduce new iPads, MacBooks, MacBook Pros, iPod touch, HomePod, and other products. The Apple Special Event is likely to

We will be glad to add your website in the credits of your game. I made this art today with all the information you gave me. Thanks a lot. It is much better than the music you gave me in the previous task, actually it's totally new to me (I did not even have a piano before so I'm a bit confused). Sorry for the delay but here it is. The song is called Cosmic Boogie or Cosmic Boogie (Vocal version). A lot of work went into this piece. It is 3D printed. The full version of this music is available for download in x2 files format. Here are some images of the 3D printed piano (I have no knowledge about graphic design or anything and I'm not much of a photographer). @Britney, that's awesome! The sound quality of the opening is amazing, looking forward to seeing the rest of it.

## What's new:

**Video - MOVIE TRAILER** So, last year I decided to step things up a bit for this Challenge. In the past I'd always chose a song that had a special meaning to me. At this Challenge I chose Bernie Tuminski, who's wise words really struck me that day. "You've just got to make your own luck." So, I decided I'd make it even more personal this year by making a 90-minute single film "in tribute" to Bernie, with his song "Don't Stand So Close To Me" in the background for 90 minutes. The result is a movie called "Chuck's Challenge 3D 2020" And here's the music video trailer: "Don't Stand So Close To Me (Session 92)" Since this is the 4th year of my "challenge", it seems only fitting that I should continue the tradition by making my 4th movie and the same song "Dont Stand So Close to Me" as the soundtrack. One year, I created a piano version, which I called "Chuck's Challenge Piano 2016". The year before that, I made a mix tape version, called "Chuck's Challenge 2015". So, what can I say? After the wonderful feedback from the audience of 4 years ago, when I posted the first Chuck's Challenge Piano 2016, I was eager to see what the audience thought of this new take on the Chuck challenge in 2020. The Talking Movies Critique You Asked For I hope this is my funniest movie yet! Many of you have asked for the song to be changed to another song that might have been more appropriate for this, so I'll just give you the song that's used: "Don't Stand So Close To Me (Session 92)" First Date With Chuck It's never too early to start the countdown, because I have a challenge for y'all! Step right up and be a part of this challenge (Warning: don't step over the velvet rope). I'll explain how to get involved. The rules are easy: 1938 or later. I would like to say that no special effects were used in this movie. (unless there was noise in the recording...) The length of the movie should be no less than 90 minutes, with applause-worthy ending Ok, but I'd also like to say that I was advised to do
