Fifa 10 was released in 2005. It's one of the best football video games to date. Its interface is simple, and features a menu which is clean and intuitive. It's no wonder that Fifa 10 is such a popular game. However, despite all the praise that its received, it seems that only a certain percentage of users get to use the game on a regular basis. Despite this, the game does not provide an offline mode. FIFA 10 is a full-featured football simulation game which features full realism. You can enjoy all its realism without having to actually download the game. Although many users may think otherwise, the game can be played without having any account. In most cases, Fifa 10 is regarded as an open source game. A full FIFA 10 tutorial is embedded with the game. The tutorial can be accessed with the use of a tutorial button. This tutorial plays sound effects as well as, names the controls. It also informs players on the meanings of individual controls such as, double tap. Important note: the game is not compatible with Mac and Linux users. However, if your computer has a compatible operating system, then installation is easy. The size of the game can vary from 3 GB to 4 GB depending on the type of operating system. The game offers 20 different countries to choose from along with the different leagues. Each country has many clubs that are very easy to navigate. After navigating through the menus, you will find the teams, leagues, and players. It's easy to create a new or edit an existing player with the help of the edit button. Clicking the edit button will allow you to edit the player details. A bar above the mini-map shows how far a player is away from your goal. You can quickly access the

matchday menu and scoreline by clicking the menu button. Down and far is a short tutorial to help you learn how to play. However, the game has a different control system. You do not have access to the standard controls, but have to use the analog stick or click to control your team. The obvious problem is that it may take some time for you to adjust to the system. Another feature of the game is the video highlights. For a full review of Fifa 10, you can visit [Play-review](#). This game features the latest mode known as Career. The Career mode is easy to use. It allows you to create a player by giving you an average age of 17, height of 5 feet
