More particularly, the invention is directed toward a headlamp assembly that is mounted on a roof of a vehicle. Even more particularly, the present invention is directed toward a headlamp assembly that has a universal adapter which enables the headlamp assembly to be mounted on a variety of different vehicles that have different roof dimensions. Many different types of headlamp assemblies have been used for various types of vehicles. The headlamp assembly is generally attached to the front end of a vehicle. Typical headlamp assemblies may include a lamp body having a housing containing an electrical lamp, a plurality of glass lens covering the lamp, a headlamp housing which is attached to the lamp body and encloses at least a portion of the lamp body and glass lens therein and a connection mechanism for operatively connecting the lamp housing to the vehicle roof so that light from the lamp is directed forwardly towards the ground. In order to properly aim the headlamp assembly, the lamp housing is attached to the vehicle so that the axis of the lamp housing is substantially parallel to the axis of the vehicle housing. The headlamp housing may be attached to the vehicle by a plurality of fasteners or by a plurality of tabs and holes on the headlamp housing which mate with corresponding tabs and holes on the vehicle. The housing or the headlamp housing may be rotatable and include a lock mechanism to prevent or limit rotation 648931e174

I made the table using create table [dbo].[UserTables] ([UserName] varchar(50) NOT NULL) but now I need to keep the table with the user names. I tried CREATE TABLE [dbo].[UserTables] ([UserName] varchar(50) NOT NULL) ON PRIMARY KEY CLUSTERED But I do not know how to associate that with the original user table. Any idea how to do this?
