---

Its design is based on the original Comic Sans. Comic Sans has been a typeface on its own, especially when you start talking about its family members: Comic Sans It, Comic Sans &, Comic Sans and Comic Sans Condition and their cousins Comic Sans Mono, Comic Sans 1, and Comic Sans 3. These fonts are all based on Comic Sans, but, unlike the originals, they also have the comic book style, and are entirely capitalized. From the designers: "You can never replace Comic Sans for us, it was the first and it will be the last. It will never be forgotten, we just want to use it for our fans and for them to use on their websites." The website found this quote in comic-sans.com, and weve used it to describe the current version of the fonts. So if youre on the Comic Sans direction, just assume that it has a bit more to it than the first two versions. We love the designs of Comic Sans. It's bold, funky, and playful. Comic Sans is a classic who is still relevant in 2018 and is loved by generations. Now it's available in light versions that are clean and crisp and a few other enhancements. The beginnings of Comic Sans were the Comic Font, which is mentioned in a Microsoft memo from 1996 (from 1997 in the European Union). The Comic Font was created by Robert Slimbach, director of Microsoft Encarta. Comic Sans has had many variations and revivals over the years, many of which include only its basic code letters. However, the original Comic Sans only includes the basic code letters and weights. This is Comic Sans design, redesigned for web and mobile. Comic Sans MS version 7: the full version, designed for the digital world. Comic Sans brand new version is called Comic Sans MS v7: the full version, designed for the digital world. With Comic Sans MS, Microsoft has updated the original roman and italic italics to give an updated version of Comic Sans for use on the web and in print. Microsoft is offering the Bold and Black versions of Comic Sans Unicode as a set of 18 different weights at no additional charge. Weights include the original version, Comic Sans 1.0, and Comic Sans 3.
