Waze or Google Maps: If you use Waze or Google Maps on your mobile device, we may collect and store your current and planned vehicle location information through Waze and Google, respectively, for use with the Waze and Google Maps applications (including collecting your geolocation through Waze in the United States, and outside of the United States through a mobile carrier). Unless you deactivate the Waze or Google Maps app, this information may be used to provide you with services through your in-vehicle infotainment system. SYNC 3: Information from your SYNC 3 system can be used to develop SYNC 3 'apps' or use location-based services and may also be used to determine your travel route and/or destination for navigation. For SYNC3 connected navigation services, Telenav obtains certain information, including: a unique user ID assigned by Ford, your current GPS location and planned route and/or destination information from your SYNC 3 in-vehicle system or mobile device, your address or point of interest search requests and search results selections, information about your use of the location search service, its performance, and your related actions and selections. Telenav may use this information to provide, improve, and enhance its products and services. For SYNC4 Connected Navigation services or Connected Built-In Navigation services, Telenav or Garmin (depending on vehicle equipment and services used) may receive information including a unique vehicle identifier, the vehicles current GPS location, route and/or destination information, address or point of interest search requests, results, and selections.
