No violation meter only works for the police in game. Not during races. And Yes, I have recorded my play throughs with it on. I REALLY want Freeze Time to actually work on those timed challenge races for the championships per class. as I cant stand them. Im glad someone else is having this same problem that Im having so the trainer maker cant say Its just you having this problem. I really dont want to have to spend six or seven bucks to get the same trainer from Cheat Happens website as even though this game is seriously old. Their trainers work and if the trainer maker known as FLING made one for this version, Id be HAPPY as the individuals trainers WORK.
